NEOmobile

The information you need at your fingertips.

NEOmobile provides instant access to a complete set of real-time NEM and Gas market reports on any device with a web browser.

😊 Easy to use

Whether for a quick overview or a lot of detail, the information you need, in the format you want, is easy to find. NEOmobile user-friendly overview page has a current snapshot in the form of a map, plus a list of market events.

📱 Designed for all devices

For iOS and Android mobile users, NEOmobile comes with accompanying app to allow you to view the information and receive the NEOmobile alerts anywhere you go.

☑ Hosted in the cloud

NEOmobile is hosted in the cloud for high reliability to ensure maximum uptime

🕒 Alerts to keep you up-to-date

For those who need to be ahead of the game, they can set NEOmobile to alert them when a particular event is occurring, either via Email or mobile app notification.

🔄 Fast real-time updates

You'll be the first to know with NEOmobile. All data is real time and refreshed within seconds as soon as data is available, so you'll know immediately what's going on in energy markets, wherever you are.

💡 Smart events reporting

NEOmobile doesn't just report market activity, it helps you interpret it. With NEOmobile smart reporting, each event type is colour-coded and linked to a report to get more detail.

📄 Comprehensive library of reports

NEOmobile has a comprehensive set of reports for you to quickly browse and assess the market.

🔍 Search any constraint

NEOmobile also has efficient constraint searches with plain English descriptions.
